Source Control:	GitHub, BitBucket, Visual Source Safe 6.0, SVN
Reporting Tools:	SQL Server Reporting Services 2008

EXPERIENCE

ORGANIZATION:	**Manhattan Information Systems – Full-Time**
TITLE:	Web Developer
DURATION:	November 2001 – April 2016
RESPONSIBILITIES:	Full-time to PER DIUM developer for http://www.maninfosys.com

- Currently converting from ASP.NET 2.0 WebForms to ASP.NET (C#, MVC 5, AngularJS, LINQ, JQuery/JQueryUI, Foundation CSS Framework) making use of Models-Views-Controllers to code business logics layer code SQL server database stored procedures Web Services. AJAX-Enabled Web Services. Calling Web Services with JavaScript. Using AJAX with ASP.NET partial rendering and dynamically loaded user controls calling Web Services thru Web API
- Working with an Agile, Scrum methodology to ensure delivery of high quality work with every monthly iteration.
- Contributed software engineering expertise in the development of products through the software lifecycle, from requirements definition through successful deployment.
- Hand coded CMS System utilizing C#/MVC 5/SQL Server for 4 Client Lawyer Websites instead of using WordPress, Drupal or Magento.
- Client implementation was a custom, SPA framework that utilized jQuery and AngularJS (all routing, data access, caching, etc., implemented as custom JavaScript code).
- Data access layer implemented with an extensible, promise-based middleware layer to give customer granular control over what happens to requests and responses utilizing AngularJS.
- Developed factories for stripping long error messages from minified JavaScript code for AngularJS
- All data requests abstracted into resource modules utilizing AngularJS
- Creating a C# Class Library Booking engine that will communicate with client application to airlines/airports via COM/WebServices returning XML/JSON.
- Created documentation for functionality to make API calls with Web Service Objects (WSDL) and Interop Com over (ActiveX.dll)
- Created accounting system to track tickets and commission for sales people. Developed http://intranet.maninfosys.com
- Utilized JQuery AJAX calls for paging grid view results (NO Postback) and utilized JQuery-UI for tabs, tooltips, modal dialog, accordion, auto complete, drag/dropping functionality
- Developed SSIS Packages to import from Access to SQL Server 2008.
- Utilized JQuery to make AJAX database calls for AutoTextBoxes results.
- Built C# ASP.NET page that prompted fields to generate a quote or invoice utilizing Reporting Services to create a dynamic Adobe Acrobat file (.pdf)

EDUCATION

Ramapo College 1998
- Bachelor's Degree in Computer Science
